

ABSTRACT OF THE DISCLOSURE
USE OF (–) (3-TRIHALOMETHYLPHENOXY) (4-HALOPHENYL) ACETIC ACID
DERIVATIVES FOR TREATMENT OF INSULIN RESISTANCE, TYPE 2
DIABETES AND HYPERLIPIDEMIA

5 The present invention provides the use of (–) (3-trihalomethylphenoxy) (4-halophenyl) acetic acid derivatives and compositions in the treatment of insulin resistance, Type 2 diabetes and hyperlipidemia.
